

Nickel Safe Ice Machine Cleaner (NSC)

ACE NICKEL SAFE ICE MACHINE CLEANER (NSC) is an USDA authorized nickel and metal ice machine cleaner blended from a combination of food grade acids and formulated not to attack nickel plated evaporators. **ACE NICKEL SAFE ICE MACHINE CLEANER (NSC)** is designed to remove scale and soil deposits from automatic ice machines with nickel plated evaporators which are easily flushed out of the system without clogging lines.

FEATURES & BENEFITS

- Formulated to protect nickel plating and other soft metals.
- Concentrated formula - economical to use.

DIRECTIONS for USE: Turn refrigerator off, but leave pump on. Drain and flush evaporator. Refill with water prior to adding **ACE NICKEL SAFE ICE MACHINE CLEANER (NSC)** to the sump. One 16 oz. bottle will clean a system with up to 3 gallons of water. Allow cleaner to circulate in system for approximately 20-30 minutes before flushing thoroughly with water. If heavy scale is present, a second application may be necessary. After scale has been removed, drain and flush system twice. Refill system and put back into operation.

SAFETY: Contains acid, may cause burns. Harmful if swallowed. Do NOT induce vomiting; give large amounts of water, milk or one ounce of milk of magnesia. Seek immediate medical attention. In case of skin/eye contact, flush thoroughly with water.

CAUTION: Contains Hydroxyacetic and Phosphoric acids. Store in cool, dry place. **KEEP OUT OF THE REACH OF CHILDREN.**

PHYSICAL PROPERTIES

APPEARANCE	Liquid
COLOR	Green
pH	0.2-0.8
ODOR	Acid
SPECIFIC GRAVITY	1.166
PACKAGING	12x16oz bottles/case 4x1 gallon bottles/case

**NSF Registered
For Use In and Around
Food Processing Areas**
