PAN-CLEAN TABS (PCT) "No-Touch" Drain Pan Maintainer

ACE PAN-CLEAN TABS (PCT) are newly developed long-lasting quaternary ammonium-based tablets formulated to react with condensate water to form a "gel-like" substance that "locks-in-place" in the drain pan. **ACE PAN CLEAN TABS (PCT)** are designed to slowly release their protective cleaning agents for up to six months ... thereby insuring block-free drain lines.

ACE PAN-CLEAN TABS (PCT) are available in 3 sizes: PCT-3 (yellow) up to 3 tons, PCT-7 (blue) up to 7.5 tons and PCT-15 (red) up to 15 tons.

FEATURES & BENEFITS

- Keeps drain pan and lines odor/block-free - prevents pan overflows, etc.
- Slow-release formula lasts up to six months... unlike 30 or 90-day tablets.
- Easy-to-Use - no plastic holder or "sock" to handle after use.
- Environmentally friendly - no waste disposal problems.

DIRECTIONS for USE: Place **ACE PAN-CLEAN TAB (PCT)** in the source of condensate water furthest from the drain outlet. The condensate water will lock the **ACE PAN-CLEAN TAB (PCT)** into place for the entire six months if sized according to the manufacturer's instructions.

SAFETY: Do not ingest. If ingested, seek IMMEDIATE medical help. Avoid prolonged skin contact. Wash hands after use.

CAUTION: Contains quaternary ammonium compounds. Toxic to fish. **KEEP OUT OF THE REACH OF CHILDREN.**

PHYSICAL PROPERTIES

APPEARANCE	Tablet
COLOR	Blue, Yellow or Red
pH	9.5
SPECIFIC GRAVITY	1.00
PACKAGING	12tabs x12-bottles/case (PCT3) 8 tabsx12-bottles/case (PCT7) 3 tabsx12-bottles/case (PCT15)
