<h2 style="text-align: center;">PVC PRIMER & CLEANER (PVCP)</h2> <h3 style="text-align: center;">Regular-Bodied Fast Set Adhesive</h3>
--

ACE PVC PRIMER/CLEANER (PVCP) is a solvent based, dauber-in-cap cleaner and primer especially formulated for application to pipe and pipe fitting surfaces. Meets or exceeds ASTM F656. ACE PVC PRIMER/CLEANER (PVCP) is for use to prime, clean and soften pipe and fittings prior to application of solvent for secure bonding of surfaces. Ideal for use for pressure applications where greater strength is required.

FEATURES & BENEFITS

- Improves long-term bond strength.
- Excellent for cold weather applications.
- Suitable for potable water use.

DIRECTIONS for USE: Clean surface to which compound is to be applied. Apply liberal amount of **ACE PVC PRIMER/CLEANER (PVCP)** to surface to be cemented. After 15 seconds and while surface still wet, apply **ACE PVC CEMENT (PVC)**. Follow solvent cement manufacturer's written instructions to insure proper joints.

SAFETY: Avoid inhalation/eye/skin contact. Do not use near heat, sparks or flame. If swallowed, give plenty of water and induce vomiting. Seek IMMEDIATE medical help. Read MSDS for complete safety information **before** using.

CAUTION: Extremely Flammable liquid. Do not store near, heat, sparks or flame. Use in well-ventilated areas. Avoid prolonged breathing of vapor. Avoid skin/eye contact. Harmful if swallowed. Wash hands thoroughly after use. **KEEP OUT OF REACH OF CHILDREN.**
